PROJECTS

Website Creating Platform

withjoy.com 

- Built a fully customized wedding website using withjoy, tailoring content and design to meet the couple's unique preferences.
- Technologies used: withjoy.com

Personal Portfolio

github.com 

- Developed a personal portfolio website from scratch using HTML, CSS, Bootstrap, and JavaScript to showcase technical projects and skills to potential employers. The site features a responsive design, project gallery and contact form.
- Technologies used: HTML & CSS, Bootstrap, JavaScript

Wrapper Company

flyernow.org 

- Designed and developed a responsive website for a car wrapping service, focusing on clean visuals and intuitive navigation to improve user experience. Applied modern design techniques to showcase car wrap styles, colors, and customer testimonials effectively, resulting in increased online engagement.
- Technologies used: HTML & CSS, Bootstrap, JavaScript

TECHNOLOGIES

Languages: C, Python, JavaScript, PostgreSQL

Frameworks: React, Angular, Bootstrap, Tailwind CSS

Tools & Database: Supabase, Github, Loveable Ai

Design & Prototyping: Figma, Adobe Photoshop
